

## FLOUR DRUM SAMPLE WINE LIST

### August featured wines by Brackenwood Vineyard

Brackenwood is located in the Kuitpo sub region of the Adelaide Hills. The vineyard is biodynamic and all fruit is Estate grown without herbicides, fungicides or synthetic chemicals. It is made without additions of any kind: sulphur (preservative), acid, tannin or finings.

Using biodynamic principles allows Brackenwood to capture regional character and vintage variation. This comes from handpicking grapes in small batches, which are then wild fermented using the vineyard's indigenous yeasts. Maturation takes place in French and Hungarian oak barriques and minimal filtration allows our wines to develop to their full potential.

2016 Riesling	8	32
